# I N T R O D U C T I O N

The company that builds Starcraft boats today, traces its roots back to 1903. That's when the Star Tank Company built its first metal boat. But what is most notable about the

Starcraft's roots go back to 1903.

company's first 93 years is not its age, but its consistency in building quality products with real value. Today, as part of Brunswick Corporation, Starcraft continues the pursuit of leadership in the industry with a complete line of quality aluminum fishing and recreational boats, pontoon boats, also fiberglass recreational and fishing boats including: bow riders, cuddy cabins, closed bows, deck boats, tournament fishing boats and even a cruiser.

Brunswick Marine continues to add to their collection of boating memorabilia with a 12' Starcraft stainless steel utility boat produced sometime in the late 1940's.

At Starcraft, we've been building boats for 93 years. And, those 93 years of experience are evident in every one we build. These boats are the best engineered, best built boats anywhere. We make the transom extra tough with 1-1/2" thick marine grade plywood sandwiched between two

The floor system, made of 1/2" marine grade plywood, is encapsulated in fiberglass resin, screwed and laminated, preventing water intrusion.

The 20-24 mm layer of high quality I.S.O. ortho N.P.G. Gel Coat is used to prevent cracking, crazing and provide UV stability to prevent fading.

layers of fiberglass. The deck also has a unique "lip" design to keep water out. Additional foam and spraycore in the hull sides increase lateral strength. You and your family can trust your Starcraft because we use only the latest technology.

The hull and deck seams are sealed, thru-bolted and screwed. Then, a PVC gunwale molding is applied and screwed every 3" for a solid, secure fit which improves deck to hull integrity.

Spray Core<sup>®</sup> 2000 on the sidewalls improves tensile strength over balsa or coremat. It also allows more strength and rigidity with less weight and gives more flex without cracking gel coat.

The integrated stringer system provides consistent strength. Stringers are laminated to the hull to increase strength and eliminate water intrusion.

Our seats are ergonomically designed for your comfort. We use

high density foam and marine grade vinyl so the seats are comfortable and tough. These seats will last a long time thanks to the lap stitching and UV coating.

# C O N S T R U C T I O N

All Starcraft boats are certified by the National Marine Manufacturers Association and meet or exceed U.S. Coast Guard Standards.

In the interest of developing the finest products available, Starcraft reserves the right to change products or specifications without notice. All representations in this catalog are believed to be correct at the time of publication. Optional equipment may be shown in some photographs.

Deep ski locker provides added storage area to keep interior free of obstructions.

Formed seats provide comfort and styling. All vinyls and threads are UV treated and stress points are lap stitched to eliminate tears.

Extruded P.V.C. gunwale molding provides great looks and added impact protection.

Snag resistant marine grade carpet.

Fold down boarding ladder provides convenient access and entry.

Stainless steel ski tow.

IBIO

Deep "V" reverse chine hull design provides improved performance, stability in turns and decreased planing time.

Tailor made clear curve windshield with tempered glass and polished frame provides greater strength and Euro styling.

The in-dash cooler with overboard drain provides convenience and no maintenance.

Fiberglass bow rider section provides great looks, reduces maintenance while adding to structural integrity.

Euro dash panel incorporates full Quicksilver® instrumentation, circuit breakers, tilt steering, lockable radio storage, Power Point™, beverage holder and padded steering wheel for great looks and convenience.

Fixed antenna provides greater reception.

Quicksilver® instruments.

Thru-bolted, sealed deck and hull eliminates waves and improves structural integrity.

Floor system utilizes 7-ply marine grade plywood encapsulated in fiberglass to increase strength and added life.

Sandwiched foam construction exceeds Coast Guard standards and provides a quiet ride.

Encapsulated longitudinal integrated stringer system ensures greater strength and longevity.

Removable fuel tank cover allows for easier serviceability at reduced cost.

Dual vented fuel tank with self venting fuel fill.

NO ONE BACKS A BOAT THE WAY STARCRAFT DOES. EVERY STARCRAFT HAS A FIVE-YEAR HULL WARRANTY AND MERCURY® / MARRINI® / FORCE® OUTBOARD AND MERCRUISER® STEPN DRIVE LIMITED ONE YEAR WARRANTY. WE GIVE YOU THIS WARRANTY SO YOU CAN SPEND YOUR TIME ENJOYING THE WATERS, NOT SITTING ON THE DOCK.

FOR FULL DETAILS, SEE YOUR STARCRAFT DEALER

# A L U M I N U M

The reverse chine hull being assembled here, provides many benefits over the traditional gull wing design: more lift with less horsepower, better fuel economy, better planing and more stability at rest.

The best designed, best engineered and best built boats on the water today are built by Starcraft. In every well-designed line, in each minute detail, Starcraft lives up to its 93 year heritage. Since its beginning in 1903, Starcraft has earned its number one position in the production of aluminum and fiberglass boats. And, while our 1996 models are all new, they share the 93 year Starcraft heritage. You can trust in Starcraft because all our boats are certified by the National Marine Manufacturers Association.

This is a one-piece 1-1/2" plywood transom which provides increased strength. The "U" Channel center keel and longitudinal stringers provide a truer running surface for improved performance.

All wood used in floors and deck are 3/4" 7-ply marine grade plywood, pressure treated to fight corrosion and backed by a limited lifetime warranty.

Four rib interior stringer systems integrated into the transom give the hull more strength and durability for a longer life.

Marine grade, UV resistant vinyl.

Fold down fishing seats with marine grade vinyl, composite frames and pinchless seat hinges.

Marine grade carpet.

In floor storage with aluminum lid.

Tempered glass.

Aerated recirculated livewells.

New custom vinyl wrapped, automotive style dash.

Gunwales are covered for sure footing.

Quicksilver® instrumentation.

Circuit breakers.

Classic 3000 control box by Quicksilver.

Vinyl inset aluminum rub rail.

Locking rod storage port and starboard.

Foam is impact-injected between the hull stringers and the floor deck for more hull strength, less noise and level floatation that exceeds industry standards.

Fuel tank access panel.

Double rivets in a stronger zig-zag pattern reinforce all heavy stress points.

All aluminum stringer system.

Reverse chine hull puts the boat on plane quicker and ensures more responsive turns.

Heavy-duty transom is built from 1-1/2" 13-ply, marine grade, pressure treated plywood and reinforced to safely accommodate the boat's maximum recommended horsepower.

Only the finest 5052 H32 marine grade aluminum goes into a Starcraft hull.

**SUPERFISHERMAN 170**

EZ access engine hatch.

Fold up changing room.

Quicksilver® instrumentation.

Fiberglass dash panel.

Extruded "Z" brackets are installed offering more strength and less flex. Then, gaskets are applied to prevent water entry to the upper deck surface.

# C O N S T R U C T I O N

## STARCASTER 1600

Powered by Mercury® / Mariner® / Force®

Marine grade UV resistant vinyl seats with composite frames.

7 locking rod storage.

Humminbird® depth finder.

Pinchless seat hinges.

.125" gauge aluminum lids.

Snag resistant marine grade carpet.

MotorGuide® foot controlled trolling motor.

6 gauge trolling motor wiring harness.

Aerated livewell.

Vinyl trim rub rails.

1-1/2" 13-ply pressure treated plywood transom, clad with aluminum.

Custom molded dash panel.

Quicksilver® instrumentation, circuit breakers.

Quicksilver Classic Command 3000 control box.

Pressure treated floors and decks.

Bearing protection.

All Starcraft boats meet or exceed all U.S. Coast Guard standards.

Welded channeled chine and keel extrusions.

Reverse chine hull construction.

Sandwiched foam construction for decreased noise, increased strength and floatation.

Color coordinated bimini with anodized supports and hardware.

Built-in 30 gallon fuel tank.

Furniture upholstery is UV (Ultra-Violet) resistant, remaining comfortable and attractive after years in the sun.

NO ONE BACKS A BOAT THE WAY STARCRAFT DOES. EVERY STARCRAFT HAS A FIVE-YEAR HULL WARRANTY AND MERCURY / MARINER / FORCE® OUTBOARD AND MERCURY® STERN DRIVE LIMITED ONE YEAR WARRANTY. WE GIVE YOU THIS WARRANTY SO YOU CAN SPEND YOUR TIME ENJOYING THE WATERS, NOT SITTING ON THE DOCK.

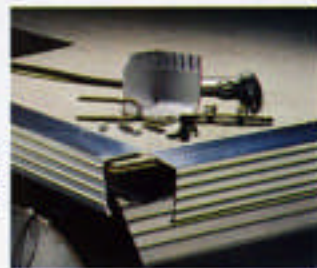

FOR FULL DETAILS, SEE YOUR STARCRAFT DEALER.

Rails and gates are anodized to resist corrosion. Gates are large enough for easy wheelchair access.

All Roto Cast furniture comes with built-in drains to prevent water build-up.

The deck is built from pressure treated 3/4" 7-ply, marine grade plywood that fights corrosion to prevent rotting, then covered with plush, snag resistant marine grade carpet.

The 3/4" 7-ply wolmanized floor system is installed and thru-bolted to insure proper deck fastening. All stainless steel hardware is thru-bolted through the extrusion, deck and "Z" bars.

## STARDECK 240 DLX Thru-bolted floor.

Extruded "Z" brackets support the deck from bow to stern.

Heavy-duty "M" brackets assure the pontoons are securely fastened to the deck.

Extruded aluminum rub rails.

Each multi-chambered pontoon log is fully welded at the bulkheads and air plugs for watertight integrity. Each pontoon is pressure tested at the factory to assure solid, worry free floatation.

Full length 1" keels provide protection as well as turning and handling performance.

All seams are sealed to prevent water intrusion.

All Starcraft pontoons feature state-of-the-art construction starting with the floatation chamber. These chambers are 23" in diameter for adequate floatation and durability. Each nose cone is hand welded and fitted with splash deflectors and keel support.

8

Clearly, the best designed, best built fiberglass runabouts on the water today are built by Starcraft. And, the 1700 Series promises a boat the whole family can enjoy. There are four models to choose from including the versatile 1709 Fish 'N Ski model that lets you do

almost everything on the water and from one boat. All 1700 Series boats feature a built-in ice chest and plenty of storage area for all your gear plus an AM/FM cassette stereo.

The 1709 is ready to go cruising, skiing, trolling or just fishing. The fish package in the 1709 includes a Humminbird® Wide Eye fishfinder and a MotorGuide® trolling motor.

There's a lockable glove box/cooler on the passenger side.

The console features all Quicksilver® instruments.

And, you can thrill to sure tracking and excellent performance created by the reverse chine, quick planing hull. The full featured 1700 Series does it all from cruising, fishing, skiing and even provides a matching custom drive-on trailer to get you to the water in style.

The 1709 has plenty of room to store your fishing rods.

Optional equipment may be shown in some photographs.

"But Dad, do I really have to kiss the fish for good luck?"

If the true measure of a watercraft is its ability to strike the best balance of these key attributes: performance, handling, comfort, efficiency, durability and reliability, then it is

arguable that the

Starcraft 2200 Series is the best balanced 22 foot boat made today. This spacious craft has plenty of room for the whole family. And, there's ample storage space in-floor and along the sides for everything you want to take along. For those long weekend cruises, there is a 51 gallon built-in fuel tank. The 2212 offers a V berth cabin area. Bring aboard all your favorite

foods and tuck them away in the hidden carry-on cooler.

See the Starcraft 2200 Series today and see why we say these are the best 22 foot runabouts on the market.

The 2200 Series includes a drinking water supply (— even the kitchen sink).

In the bow cabin of the 2212 there is a comfortable V berth, a Porta Potti™ and a fresh air hatch.

The fold-down table behind the captain's chair comes complete with drink holders.

In the 2212, passenger seats fold down into a sun lounger.

The console features a Quicksilver® Classic 3000 control box, Quicksilver instrumentation and an AM/FM cassette stereo.

STARCASTER  
1600

STARCASTER  
1700

STARCASTER  
1700 LS

The Starcaster series — three bass boats designed for serious fishing, but each reasonably priced. Take a look at the Starcaster 1600, the Starcaster 1700 and the 1700 LS and you're sure to find just what you're looking for. Each comes with the best fishing features including aerated livewells, lockable rod storage, gear storage areas, Quicksilver® instrumentation, MotorGuide® trolling motors, Humminbird® fishfinders and more. And, all this on a sleek surface that surpasses the competition.

The Starcaster 1700 has both fore and aft 13 gallon aerated livewells.

The high performance, reverse chine hull takes you to your fishing spot fast.

All three of these popular models have matching custom trailers. So, when planning your next fishing adventure, let the Starcaster take you there.

Windscreens are standard and the instrumentation is all Quicksilver® with Humminbird® Wide Eye fishfinders.

There's ample locking rod storage in all models. The Starcaster 1700 and 1700 LS have storage also under the bench seat.

36

When you're America's favorite manufacturer of aluminum boats, you can't rest on your reputation. You've got to keep on improving. And, that's just what we've done with our Fishmaster Series.

The Fishmaster 160 has a 21 gallon port aerated livewell.

The stand in its zippered storage area.

The stand-up convertible top offers protection and when not in use, stores quickly in its zippered boot. There's room for all your rods in the port and starboard rod storage areas.

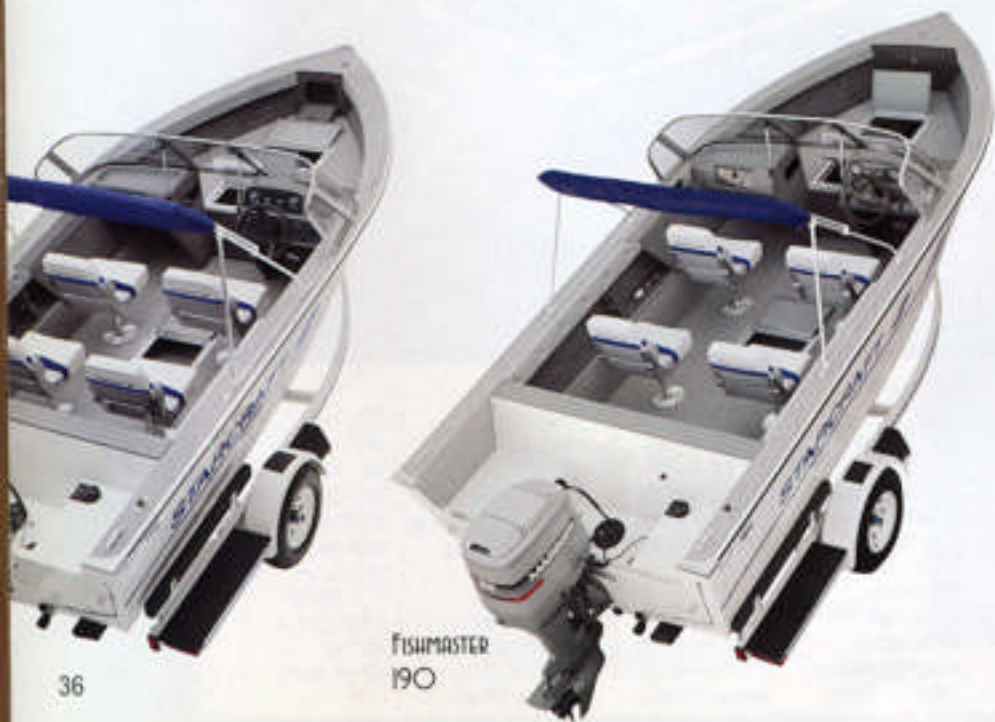

At the helm of the Fishmaster 170 and 190 is a Quicksilver® 3000 control box and Quicksilver instrumentation as well as a Humminbird® Wide View fishfinder.

The aerated bow livewell in the Fishmaster 170 and 190 have a convenient timer to help keep the catch fresh.

The Fishmaster 170 and 190 also have built-in tackle storage.

FISHMASTER  
190

**T**he Fishmaster Series meets your needs as a serious fisherman. The deep V-hull is rugged and will go anywhere the fish are biting. Keeping your Fishmaster in ship shape is easy since the interior is treated with tough, marine grade vinyl.

ISLANDER  
191ISLANDER  
220ISLANDER  
221

For the big water lake or river, Starcraft Islanders catch the day with all the conveniences you can name and maybe some you haven't thought of yet. Going after salmon, trout or whatever chases your bait, you can count on the Starcraft Islander to show you a great day. Comfort and good planning are displayed in the 191, featuring twin seats forward and removable stern jump seats. There are V berths in the forward cabin and, when needed, a stand-up convertible top. The 220 and 221 have aft facing fishing positions. All Islanders fea-

ture large aerated livewells, tackle storage units, Humminbird® fishfinders and an abundance of storage room. The large, built-in fuel tank guarantees that you'll cruise all day.

There's a 30 gallon livewell on the 191V and 49 gallon livewell on both the 220 and 221V.

Every Islander comes standard with a full windshield with tip-out window vents, a console and a Humminbird® fishfinder.

The Islander's berth has privacy curtains, bow hatch, V berth cushions, an optional Porta Potti® and locking cabin door.

The stand-up convertible top goes up quickly — stows easily. An optional hard top is available.

Most Starcraft boats come standard with a Mercury®, Mariner® or Force® outboard motor or MerCruiser® stern drive with standard and optional horsepower matched to each hull for optimum performance and economy.

The MerCruiser® 3.0 LX, 4.3 LX, and 5.7 Litre stern drives use a GM Powertrain 4-cylinder or V-6 engine, respectively, as its power source for the most efficient combination of what every boater wants in an engine: power, economy and dependability.

In the interest of developing the finest products available, Starcraft reserves the right to change product specifications without notice. All representations of this catalog are believed to be correct at the time of publication. Optional equipment may be shown in some photographs.
